

## SITUATION REVIEW OUTUBRU- NOVEMBRU 2019

Early Warning and Early Response System (EWER) is continuing to monitor in 4 municipalities; Baukau, Covalima, Dili and RAEOA in period of October and November. The EWER system uses a monitor partnership network at the village level to collect information on incidents. The monitors are trained to verify and send incidents of violence data to their municipality coordinators. These Coordinators send the data through online via tablet computers to Belun's national database system. Every two months Belun prepares this Situation Review. If you want more information about EWER system or are interested in more details of violence data in Timor Leste, please visit [www.atres.belun.tl](http://www.atres.belun.tl)
